

Stephanie Czajkowski

About

Former PR practitioner turned web developer & UX designer.

I am seeking an environment to contribute these skills while expressing my passion to design and build meaningful products with users at the center.

Driven by an eagerness to learn and better my own skills in order to deliver quality and delightful experiences.

Interests

- Information Architecture
- UI Design
- Front-end development
- Corgis

Web Developer + UX Designer

Web Development

Tech Talent South: *Atlanta, Ga.*

Web Development Immersion Program

- Equipped with the skills to build a fully functional web application with Ruby on Rails.
- Additional material included HTML, CSS, SASS and Javascript.
- A demo of my final project for this program can be viewed [here](#).

Metal Experts LLC.: *West Palm Beach, Fl.*

metalexpertsllc.com

- Explored HTML and CSS by volunteering to build a website for Metal Experts, prior to learning formal web design skills.

Programming languages + skills

- Ruby on Rails, HTML, CSS, Javascript, SQL, Bootstrap

UX Design

General Assembly: *Atlanta, Ga.*

UXDI Immersion Program

- 10 weeks and over 500 hours of professional training in the fundamentals of UX design. Provided hands on experience with the UX process.
- Skills acquired: sketching, wireframing, user-testing and prototyping.
- A mix of independent and group work, five projects were completed including the following:

Software

- Photoshop, Indesign, Sketch, Axure, InVision

Education

Auburn University: *Class of 2014*

- BS in Public Relations
- Focus in marketing and international relations

Background

With a background in PR, specifically the healthcare and hospitality sectors, I have additional experience and skills in branding, media relations and creative writing.
